

## PARKING REGULATIONS HARFORD LANDING

Amended and Approved August 28, 2018

Pursuant to Port San Luis Harbor District Resolution 07-02, the following clarifications and exceptions are made to the written Parking Regulations, adopted February 27, 2007, and amended by Ordinance by the Board of Commissioners on June 23, 2009:

The purpose of the following is to ensure the availability for the jetty area for use by the general public, unless otherwise reserved for a special event or other purpose:

1. No parking or camping on the jetty adjacent to the trailer boat launch area

The purpose of the following is to ensure the availability of parking for vehicles towing trailer boats actively involved in marine activities, while ensuring the safe enjoyment of District facilities by all users:

2. If space is available, camping is permitted in Spaces 1 – 14 of the Coastal Gateway parking lot under the following conditions:
  - a) Campers must be towing a trailer with a boat
  - b) Boat must be currently registered and displaying a CF number
  - c) Camping is limited to a maximum of fourteen consecutive nights; vehicle, trailer and boat must completely vacate the space. Camper may relocate to any other available area within the port exclusive of Coastal Gateway spaces 1-14
  - d) Camping is single space, with no utilities
  - e) Camping fee is as established in Code of Ordinances Chapter 4.500 for other 'dry' camping
  - f) Spaces 13 & 14 may be used for Camp Host/Water Taxi purposes
3. If use of spaces 15 - 32 in the Coastal Gateway is, due to high demand, restricted to vehicles pulling trailers with boats, as described in Paragraph 2 above, then the same restrictions for camping overnight in spaces 15 - 32 shall apply with the exception that utilities for camping may be available, in which case the camping fee shall be as established in Code of Ordinances Chapter 4.500 for Coastal Gateway camping.
4. Vehicles with attached boat trailers may line up for early launching at the sport launch, beginning at 10:00 p.m., provided that the vehicle and trailer are at all times accompanied by a driver, and remain in a condition suitable to be moved immediately on request by District Harbor Patrol or Security.

5. Certain parking spaces may at certain times be designated by signage for vehicles towing boat trailers only. At all other times, and unless otherwise designated, all spaces in the Harford Landing parking lot are for general parking.
6. Vehicles towing trailer boats and parked on District property may be required to display evidence of boating activity (e.g. launch receipts).

The purpose of the following is to ensure that patrons staying at Port San Luis use and pay for camping facilities:

7. Vehicles lining up for early launch for more than two consecutive days may be required to purchase and display a valid District camping permit.

The purpose of the following is to ensure that the District proactively manages the limited parking for the greater benefit of all patrons and visitors:

8. During times of peak demand, District staff may direct certain users to use certain specific locations within the District.
