

NEW MOORING CHECKLIST

The items below are required to secure a mooring permit and to start the process for building a new mooring.

_____ Completed and signed mooring application/permit form.

_____ Copy of current driver's license.

_____ Copy of current vessel registration or documentation of boat to be moored at Port San Luis.

_____ **Deposit (50 % estimated cost) required:** determined by length of boat.

Deposit of: \$1,750 - vessels up to 25 ft.

\$2,250 – 26 ft. to 35 ft.

\$2,750 – 36 ft. to 45 ft.

\$3,250 – 46 ft. to 55 ft.

Over 55 ft. to be determined by Mooring Master after review of engineer's specifications.

Upon completion of building and setting the mooring, the District will notify the owner of the mooring number and location. The balance owed will be billed and is due within 30 days of receipt of the invoice.

All moorings are required to be inspected annually. The District will notify you by mail or email of when the inspection is due and the appointment options. Owners may be present for this inspection by scheduling an appointment. If repairs are necessary, the owner will be billed for the necessary repairs, labor and equipment.

Terminating your permit requires a 30-day written notification to cancel. If you choose to sell your mooring hardware to another party, the District must be notified in advance. All moorings are built for the length of boat and are placed by category of use and seniority. Selling a mooring does not guarantee the space to the new owner.

The Port San Luis Harbor District Code of Ordinance, Chapter 16 provides the rules and regulations of the moorings and water use in the Harbor. A copy of Chapter 16 is being provided to you and you may also view it on our website at www.portsanluis.com. By my initials on this document I acknowledge receipt of Chapter 16 and agree to follow the provisions currently therein or as may be amended from time to time.
